

Makers of the First Voice product line

CAPABILITY STATEMENT

COMPANY OVERVIEW

Think Safe is committed to using technology to develop, manufacture and provide innovative products and solutions which improve training and access to CPR, First Aid, and other essential care during emergency situations, setting new standards for comprehensive emergency readiness and response.

Think Safe manufactures innovative products for injury management and develop resources to improve access to First Aid, CPR and emergency medical training. With our First Voice product line, AEDs, and other emergency equipment, we can build custom emergency response units to fit your safety needs. Think Safe employees are technical experts in emergency readiness and First Aid, AEDs, and medical and environmental emergency response programs that help organizations be compliant with local, state and federal regulatory requirements.
