

Introducing the Prestan Professional Manikin – guaranteed to be the future of CPR/AED training manikins!

Realistic looking and acting manikin is more acceptable to both instructors and students.

Gives each student a realistic experience that provides for the best "real life" CPR outcomes.

Full chest rise and lung bag ensures that students receive the most accurate and realistic training.

Rate Monitor gives instant feedback and helps students take CPR learning experience seriously.

Far easier and faster to carry and set up at training sites.

Easy-to-insert face shield lung bag speeds setup of the manikin.

Face/head tilt enhances the CPR learning experience and teaches students how to open the airway during CPR.

Face shield is secured so it won't slip and there's no need for adhesives.

Clicker mechanism increases student's confidence in administering adequate compressions.
