**First Voice Emergency Instruction Device (EID) (#AVU5001)**

A perfect AED companion, this lifesaving device calms and coaches users on hundreds of traumatic emergencies. The simple and easy-to-use touchpad gives direction on how to respond quickly and accurately with audible and visible instructions. The Yes/No buttons are used to answer questions asked until the EID can accurately give instruction on how to proceed and further treat the injured person from scene assessment to cleanup of the event. Be prepared in the event of a sudden emergency; no first aid/CPR training necessary.

- Size: 9" x 11.5" x 1.25"      Weight: 2 lbs including batteries
- Ideal Usage: Any setting, IP 54 dust protected and water protected
- Batteries: 3 AA (standard or rechargeable)      Warranty: 3 years
- Includes: EID, data card with ECC/AHA compliant protocols, & user manual.

\$249.00 MSRP

Emergency Instruction Device (EID) (#AVU5001)

**EID Accessories & Upgrades**

Data cards allow you to have strict adherence with other major training organization protocols. Inserting a new data card is a simple process with the easy access port on the back of the EID.
