

# First Aid Cube

#FAP152

A recent study shows that workplaces still do not own the adequate number of first aid kits for their mobile employee needs. With the First Aid Cube, you get the most comprehensive portable first aid kit on the market and for up to \$100 less than competitor models! There are over 95 items in our rugged Cordura soft-sided case, including emergency intake forms to hand off to EMS, trauma dressings, glucose, CPR barrier, and many other items that are not standard with off-the-shelf ANSI compliant first aid kits.

Not just for work! The First Aid Cube is the multi-dimensional fit for work, sports, home, and life.

8.5" x 4.5" x 7" Bag

Exceeds ANSI standard Z308.1

## Contents
