

ResQr First Aid & CPR Coach

#R1000

Can you save a life? Don't wait for an emergency to happen – get this resource today to be ready tomorrow.

Interactive, talking first aid software that uses Yes/No questions to deliver step-by-step instructions for any major or minor first aid emergency within 12 trauma categories. With the simple touch of the screen, any individual can receive **real-time** instruction in first aid and basic life support procedures. ResQr can also be a powerful source of refresher training to improve skill retention.

Perfect to be used with our First Voice Training Scenario Book when loaded onto a standard PC or laptop! Just 15 minutes of refresher can help you save a life and improve your first aid skills retention. *Repetition = Retention!*

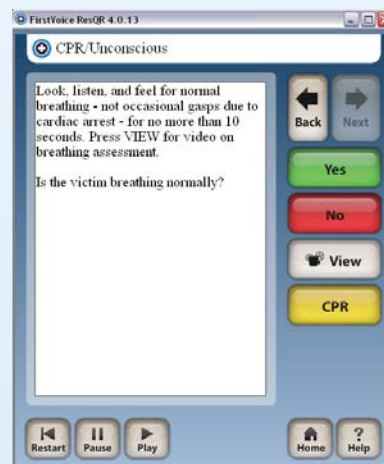

The home screen menu is where you choose from one of the twelve starting points.

2007 & 2008 Best New Software!
Smartphone and Pocket PC Magazine

Meets National First Aid Science Advisory Board Guidelines!

A great tool for hands on skills refresher OSHA compliant first aid and CPR training. Quickly review your training or assist victims with:

- Allergic reactions
- Assessment of airway, breathing, and circulation
- Amputations
- Bleeding emergencies
- Protruding objects
- Gunshot wounds
- Wilderness first aid (splinting and slings)
- Breathing emergencies
- ARC-Flash
- Cardiac events
- Adult/Child/Infant/Newborn CPR for Lay Rescuers
- Pacing of CPR compressions and integration with AED
- Choking emergencies (adult/child, infant, obese/pregnant)
- Contusions
- Diabetic emergencies
- Dental emergencies (knocked out tooth)
- Emergency childbirth
- Multiple injury assessment/prioritization/care
- Near-drowning incidents
- Poisoning emergencies
- Seizure emergencies
- Shock
- Stroke events

Once a category is selected, the program coaches you through step-by-step yes/no questions.

Also contains Department of Homeland Security guidelines for chemical/biological/radiation threats. The voice instructions cover when and how to use available first aid supplies and provide important reminders about personal protection, scene safety, and obtaining consent.

Compliant with American Heart Association and major training organization protocols. Platforms Supported: PC: Windows 2005 and newer. Pocket PC: Windows 2003 and newer operating systems (Windows Mobile/Windows Mobile Pocket PC) Mac OS 10 Leopard and Newer.
