

Considering the purchase of a defibrillator(AED)?

#hs01

Rugged AED that stretches your budget dollars

- **Durable** - highest durability rating of any AED; designed to be used for mobile deployments and rugged indoor or outdoor environment
- **Cost of ownership** - most inexpensive AED to buy but also the lowest upkeep costs: Pad-Pak expiry provides 1.5 years more life than competitor pads
- **Compact** - smallest and lightest AED on the market at 2.4 pounds; easy to transport and small size reduces cost for cabinet storage
- **Ease of use** - easiest to maintain AED with only 1 expiry date to monitor for Pad-Pak that combines pads and battery; visual and audible prompts including CPR metronome
- **Advanced technology** - utilizes advanced SCOPE technology to assess rhythm and recommend defibrillation if necessary; survival rates using HeartSine technology are higher than competitors
- **7 year warranty** - beats AED competitors with a 2 year additional warranty offering at NO Extra Cost
