

## **Emergency Readiness Kits**

As core components of the various First Voice Self-contained Emergency Treatment (SET) Systems, these four emergency first aid and response products also serve a strong and important purpose individually.

Don't cut corners when it comes to being prepared for the unexpected. Save a life by making sure your first aid and response program is comprehensive and up-to-date. For stand-alone first aid kits or refilling your First Voice SET System, these emergency readiness products are essential.
